Profile

I'm a passionate, self-motivated and well-organized professional JavaScript Front-end developer, with 3+ years of experience in solving complex tasks through the writing clean and maintainable code and providing the great user experience that benefits business growth.

Technically:

Have a strong knowledge of vanilla JavaScript and MVC frameworks, such as Sencha ExtJS, and libraries such as Knockout and Backbone.js, as well. My specialization is developing the Single Page Applications (SPA) using REST API.

Personal characteristics:

Open minded and successful working in both team and self-directed work environments. Strong analytical and communication skills, with ability to understand both technical and business requirements.

My rules of development:

- Clean and maintainable code for colleagues;
- Friendly experience for the users;
- Revenues for the business;

My hobby:

Apart from my main work, I enjoying to improving my technical and practical skills and stay updated by developing software prototypes using cutting edge technologies and tools.

Work experience

GlobalLogic
Kyiv
Ukraine
